WHAT IS TRAIN?

TRAIN is the nation's premier learning resource for professionals who protect the public's health. TRAIN is comprised of the national <https://www.train.org> site and participating TRAIN affiliate sites. Affiliate sites are managed by many state public health agencies, academic partners, and others. TRAIN serves a large portion of the U.S. public health and safety workforce.

Because all TRAIN sites are connected, TRAIN users can access information about state, local, national, or international training available to them through any participating TRAIN site.

Learners can use TRAIN to:

- > Search or browse the nationwide database for on-site or distance learning courses
- > Sign up for e-mails about new courses
- > Create a personal learning record of competency-based training
- > Provide and view feedback about courses listed on the site
- > Register online for many courses

TRAIN is a project of the Public Health Foundation with funding from participating affiliates and the Centers for Disease Control and Prevention as well as a grant from The Robert Wood Johnson Foundation.
