*The goal of **Family Literacy** is to help parents reach their educational and employment goals while supporting them in their role as their child's most important teacher.*

## **We achieve this through the following Four components:**

<b>Adult Education</b>	You attend classes 2-4 times weekly to work on academic skills to your educational goals. All classes are <b>FREE!</b>
<b>Parent Education</b>	The content areas of the school-readiness, early literacy, and child development will be addressed through lessons that are built directly into regular adult classes.
<b>Early Childhood Education</b>	Developmental assessments are conducted on infants, toddlers, and preschool-age children to give you information about your child's development and to help determine school-readiness.
<b>Interactive Literacy Activities</b>	You attend with your child to participate in fun activities that provide opportunity for positive, literacy-focused interactions.

The Private Industry Council is an equal opportunity provider and employer.
