

ADHD EXPERT WEBINAR

A Parent's Guide to Problem-Solving School Behavior Struggles

EXPERT: Rachel Schwartz, Ph.D., BCBA-D

DATE & TIME: Wednesday, November 10 @ 1pm U.S. Eastern Time
(12pm CT; 11am MT; 10am PT) | [Find it in your time zone >](#)

This webinar will be recorded. [Register now and we'll reserve you a spot \(even if you can't attend live\) AND email you the replay link »](#)

.....

You get a phone call from the school informing you that your child is having behavior issues in the classroom. Now what? This webinar will walk parents through steps to take from that first phone call to developing and implementing an individualized behavior action plan.

In this webinar, you will learn how to:

- Communicate and collaborate with the school
- Structure questions to gain relevant information from the school team
- Identify and describe four areas to consider for interventions
- Structure and monitor a behavior action plan
- Gain comfort and confidence in leading your child's behavior program

[Register Now to Reserve Your Spot & Get Replay Access »](#)

NOTE: ADDitude offers an optional certificate of attendance to webinar participants, but does not offer CEU credits. The cost of the certificate of attendance option is \$10. If interested, register for the webinar and you'll receive instructions after it ends. The

certificate link will also be on the [webinar replay page](#) after the live webinar.

MEET THE SPEAKER:

Rachel Schwartz, Ph.D., BCBA-D

Rachel Schwartz, Ph.D., BCBA-D, has worked internationally creating and supervising programs for individuals with disabilities. Her work as a consultant and trainer includes teaching behavior analytic strategies and exploring issues related to sexual education and quality of life. Through her organization, [Behavior Goals](#), Dr. Schwartz taps into more than 15 years of experience working in special education to empower students, families, and professionals.

The sponsor of this webinar is...

Brain Balance is a holistic cognitive development program designed to help kids with ADHD, Learning Differences, Anxiety & beyond. An exploratory study with Harvard's McLean Hospital found the Brain Balance Program to be as effective as low-dose stimulant medication in alleviating ADHD symptoms in children. Visit brainbalance.com to learn more about Brain Balance today.

ADDitude thanks our sponsors for supporting our webinars. Sponsorship has no influence on speaker selection or webinar content.
